

MAIN OBJECTIVES

To enhance the capacities of the Higher Education Institutions (HEI) in offering Lifelong Learning (LLL) courses in line with labour market needs, while promoting at the same time the development of a quality & accreditation framework for LLL.

1

To create LLL Observatories and modernise existing Centres in 6 PC HEIs by building capacities to monitor actual needs, and provide appropriate training.

2

To establish a regional network of LLL Centres for good practice exchange, peer to peer learning and dialogue.

3

To undertake a pilot action of LLL courses in each partner country, promote flexible learning tools and provide recommendations for the recognition and accreditation of LLL courses, enabling learners to progress in academic and professional careers.

Implementing the lifelong learning Concept in Southern Neighbouring Area:

Responding to the changing needs of dynamic resources
